Dato: 16.12.2024

Consumption - 10 amp/220 V plug	per day	50 kWh
Consumption - 16 amp/380 V plug	per day	140 kWh
Consumption - 63 amp/380 V plug	per day	500 kWh
Connections without permission will be charged an additional fee	per time	DKK 1,419.00

Port of Rønne A/S has the sole discretion to determine the amount of consumption if the above is not deemed to cover the consumption.

Wastewater and oily waste

Sewage and residues and mixtures of oil to be collected by vacuum slurry tanker/vehicle are received within Port of Rønne A/S' normal working hours. If the ship is only in port outside normal working hours, collection is only carried out subject to a fee.

Sewage can be delivered 24/7/365 from quays 31, 32, 33, 34 and 35 by connecting to the sewage system.

TW coupling or IMO standard discharge connections must be used - Bolt circle diameter 170 mm, 18 mm bolts.

Wastewater prices (over 2 m³)

		DKK
Connection	per time	311.00
Water drainage charge	per m ³	55.75
Connection fee - chemical H ₂ S prevention system (at +10 ppm in wastewater concentration) (Quay 31-35)	per time	311.00
Chemical surcharge (for H ₂ S treatment when emptying wastewater)	per m ³	5.22

Oil slops prices (over 2 m³)

If it is not possible to discharge wastewater directly to the public sewage system or if the wastewater does not meet the requirements for wastewater concentration (+ 10 ppm), a payment for an external vacuum slurry extractor is charged in addition to the prices per m³ for drainage charge and chemical fee, respectively.

		DKK
Oil sloop	per tonne	2,140.00
