## Cruise Ship Berthing Booking and Confirmation Process

### Berthing Objective

The objective of the Berthing Booking and Confirmation Process for cruise vessels is to provide clear, transparent, and non-discriminatory guidelines for the allocation of berths at the Port of Roenne. Allocation will be based on vessel pre-notification, arrival schedules, and compliance with administrative requirements.

This Berthing Policy is effective from January 1, 2026, and the Port of Rønne reserves the right to modify it annually.

### Berth Booking Procedure

1. All new reservation requests must be submitted via email to [yag@portofroenne.com](mailto:yag@portofroenne.com), with a copy to [vagt@portofroenne.com](mailto:vagt@portofroenne.com)
2. All call requests will be confirmed without allocation of a specific berth, pending verification of berth availability.
3. Specific berth allocations for the upcoming season will be announced by March 1st.

### Berthing Criteria

In the event of multiple bookings for the same date and berth at the Port of Roenne, priority will be given based on the following criteria:

- Vessel size
- Maximum passenger capacity (registered lower berth capacity)

### Berth Allocation Procedure

The Port of Roenne can confirm berthing for cruise vessels at the following facilities:

- Pier 37: LOA 370 m, depth 11 m
- Pier 31/32: LOA 220 m, depth 9 m
- Pier 13: LOA 200 m, depth 7 m
- Pier 15: LOA 150 m, depth 7 m

### Further Policies

1. If a confirmed vessel is substituted by another vessel from the same cruise line with different characteristics (e.g., lower GT, fewer passengers, or a change in deployment type), the reservation remains valid; however, the specific berth may be adjusted.
2. To ensure fairness, transparency, and good business practices, the Port of Rønne does not tolerate or accept the practice of a cruise line submitting call requests to two or more ports simultaneously for the same vessel on the same date.
3. All applicable laws and regulations at the Port of Roenne remain in force unless otherwise specified in this policy.
